

Assembly instructions for BA599 Panel lamp sealing kit

The BA599 panel lamp sealing kit provides IP66 rear protection for all BEKA LED panel lamps.

Each sealing kit consists of the following components:

Quantity	Description	BEKA part number	Notes
1	Rear panel sealing sleeve	012-021	
1	M20 plastic cable gland	065-049	
1	Gasket	069-010	

Installation – see figure 1 below

1. Form a 22.5mm hole through the panel in the desired position.
2. Assemble the M20 cable gland and the rear panel sealing sleeve as shown below.
3. Feed supply cable through the assembled gland & sleeve, the gasket, the panel, and the remaining gasket before wiring to the lamp.
4. Insert the lamp through the hole in the panel and assemble as shown below.
5. Tighten M20 cable gland.
