

Quality and Compliance Manager

This would be a great opportunity for an experienced candidate who also has basic electronics knowledge and is able to assess intrinsically safe designs.

As this person will be the ultimate decision maker on quality issues, they need to be both practical and assertive with good communication skills.

Location: Hitchin, Hertfordshire

Remuneration:

- This a permanent full time job with a salary that will depend upon experience
- BEKA operates a company funded private medical insurance scheme
- Pension contribution
- Death-in-service benefit

Education: Electronics Engineering qualification (HND or higher)

Experience: 10+ years experience in a manufacturing environment

Essential Skills:

- Previous experience of setting up and maintaining an ISO 9001 quality system in a manufacturing environment
- Conducting and producing regular reports on internal audits, monitoring of the company KPI's
- Dealing with external auditors, customers and certification authorities
- Practical experience in dealing with quality issues both internally and externally (supply chain)
- Understanding of mechanical tolerances
- Assessment of external suppliers
- Excellent written and verbal communication skills
- Basic knowledge of digital and analogue electronics circuits
- Good mathematical skills
- Knowledge of WEEE, ROHS and REACH directives
- Providing new and existing staff with training on quality and certification requirements

Desirable but not essential Skills:

- Knowledge or experience with products certified for use in potentially explosive atmospheres (ATEX)

- Experience of obtaining third party certification of products for use in potentially explosive atmospheres (ATEX)
- Understanding of ATEX/IECEx requirements for production related to ISO 9001
- Understanding of UK health and safety rules, carrying out risk assessments
